Internet governance from the edges: National and regional IGFs in their own words

National and Regional Internet Governance Forum Initiatives (NRIs) emerged in response to the success of the first two global Internet Governance Forums (IGFs). The Tunis Agenda for the Information Society, the outcome document of the final phase of the World Summit on the Information Society (WSIS), alongside the call for the creation of the IGF, served as the foundations for the model of bottom-up, multistakeholder internet governance. The first NRIs were set up in 2007 and 2008, and there are now close to a hundred initiatives, comprising national, sub-national, regional and youth initiatives, which organise autonomously and cooperate with the global IGF Secretariat. The importance of NRIs has increased throughout the years, as they have grown in number and their work has expanded in scope. They have acquired such relevance within the IGF that an NRI session was included in the IGF 2016 and 2017 main sessions agendas.

This year, APC has taken the initiative to compile two editions of Global Information Society Watch (GISWatch) focused on the work of NRIs. While the main 2017 GISWatch annual report provides independent and analytical perspectives on the role of NRIs in internet governance broadly, the present companion edition, Internet governance from the edges: National and regional IGFs in their own words, aims to give voice and visibility to the stories of each NRI, share their experiences and achievements, and highlight their perspectives on internet governance.

Privacy statement

This privacy statement was displayed at the beginning of the survey in English, alongside links to its Spanish, Bahasa Indonesia, French and Portuguese versions.

Questionnaire survey privacy

Read our survey privacy statement in Español, Bahasa Indonesia, Français or Português.

We take your privacy very seriously. The Association for Progressive Communications (APC) will do its best to ensure that the general findings of this survey are shared and accessible. All personally identifiable information received through this questionnaire (e.g. email address or name) will be kept confidential and treated in an anonymous generic fashion.

All responses will be used only for the research, advocacy, or other specific purposes of this survey. The APC will not be able to personally identify you by the information you provide in your responses to this survey, unless you choose to provide your details. We will not collect nor disclose your personal information to third parties without your explicit consent.

How we use cookies

A cookie is a small file which asks permission to be placed on your computer’s hard drive. Once you agree, the file is added and the cookie helps analyse web traffic or lets you know when you visit a particular site. Cookies allow web applications to respond to you as an individual.

In the context of this survey, cookies are only used to remember the answers you provided should you choose to come back to the survey later. Cookies on this survey are not used to identify you, track your web surfing history, or obtain any other information about you or your location.
